

Fig. 1

Fig. 2

57

A cross-sectional view of a device. It features a base layer 31 with a hatched pattern. Above the base is a layer 35 with a wavy line pattern. On top of layer 35 is a layer 36 with a hatched pattern. A central feature 60 is shown with a peak and a dip. A curved line 65 is on the right side.

A cross-sectional view of a multi-layered structure. The structure consists of several layers. The bottom layer is labeled 31 and has a diagonal hatching pattern. Above it is a layer labeled 32, which is a thin solid line. Above 32 is a layer labeled 33, which is a thin solid line. Above 33 is a layer labeled 70, which is a thick layer with a stippled or dotted pattern. The top layer is labeled 75 and is a thin solid line. The entire structure is shown in a perspective view, with the layers extending into the distance.
